### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The Applicant claims an electrical energy generating device, comprising a cell having a hydrogen electrode, a proton conductor film, an oxygen electrode, a sheet cover having both air permeability and waterproof characteristics, wherein the sheet cover shrouds the cell; and a water-absorbent sheet having air permeability characteristics and a water-absorbing property which is provided inside the sheet cover, wherein the water absorbent sheet shrouds the cell.

In the prior art of record, Lakeman et al., WO 99/60642, teach an electrical energy generating device comprising a cell having at least a hydrogen electrode, a proton conductor film, an oxygen electrode, and a sheet cover having an air permeability and a waterproofness, wherein the sheet shrouds the cell; and it teaches the sheet cover is formed of polyester.

However, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a water-absorbent sheet having an air permeability and a water-absorbing property provided inside the sheet cover, so that the water absorbent sheet shrouds the cell.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Angela J. Martin whose telephone number is 571-272-1288. The examiner can normally be reached on Monday-Friday from 9:00 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
